Bring Business Innovation to Patient-Focused Excellence

Healthcare leaders in today's competitive market need business knowledge in addition to nursing competencies. FordBridge's Master of Business Administration and Master of Science in Nursing Leadership in Health Care Systems) is designed to provide both for experienced nurses who have earned a bachelor's degree outside of nursing, but desire to advance to a master's level degree within nursing. This MSN bridge program bridges the gap to allow you to attain your desired MSN degree.

What You Will Learn

Throughout this MSN and MBA bridge program, you will critically survey foundations of advanced nursing practice and leadership. That means engaging in six graduate-level courses that build your:

- Mastery of evidence-based practices across professional dynamics
- Health assessment
- Applied statistics
- Nursing research methods

- Community and public health
- Pathophysiology

Your Next Degree

FordBridge's Master of Business Administration and Master of Science in Nursing Leadership in Health Care Systems dual degree program integrates advanced healthcare theories with the business concepts needed to successfully lead healthcare organizations. As a graduate of this innovative FordBridge course of study, you will be prepared to fulfill a leadership role within a healthcare organization, such as chief nursing officer, vice president of patient services or chief executive officer.
