## **Overview**

### **Prepare for Your Project Management Institute (PMI)® Certification**

With FordBridge's Master of Business Administration (MBA) with an Emphasis in Project Management, you can bolster your competency in efficient business practices. This project management degree program incorporates research-based strategies with business fundamentals to nurture your skills in traditional and agile project management. Coursework to prepare you for functional management is logically embedded throughout your program to support your development into an adept project manager.

In this MBA in project management degree program, you learn the core functions of a project manager and apply research based concepts to improve your effectiveness. You use your interpersonal skills to address each business function and discuss innovative methods to minimize processes and enhance productivity. If you choose to pursue FBU's Master of Business Administration with an Emphasis in Project Management, you have access to intense academic training to help you prepare for the competitive certification process from the Project Management Institute.

## **What You Will Learn**

## Real-World MBA Project Management Coursework

The MBA in project management accelerates your learning through multiple course topics and objectives:

- Managerial concepts and strategies relating to the management of operations in both manufacturing and service environments
- Traditional project management as delineated in the PMBOK® Guide
- Microeconomic and macroeconomic concepts relevant to contemporary business
- Quantitative tools and techniques used to model business functions and applications
- Current services marketing concepts, principles and theories
- Definition, formulation and execution of strategy within organizations

## Career Outcomes

### Potential Careers with Advanced Project Management Skills

The project management degree offers you advanced skills and prepares you to pursue a career as a project analyst, project manager, executive, director of operations, manager or other business leader. Typical workplaces include business entities, service organizations, engineering and IT firms, design organizations and government agencies.
